Areas of expertise / experience:

Food distribution, meat processing, slaughterhouses, processed foods, cannabis processing

Qualifications:

Education and Training

- HACCP Certificate Program – Saskatchewan Food Industry Development Centre
- M.Sc. Zoology – Western University, London ON
- B.Sc. Biology – The University of Winnipeg
- Trained in the Food Safety Enhancement Program (FSEP), Manitoba HACCP Advantage, Canadian Grain Commission HACCP and the BRCGS Global Food Safety Standard

Experience

- Created and implemented HACCP food safety systems for a variety of Manitoba processors, both federally and non-federally licenced.
- Created and implemented Good Distribution Practices programs for several Manitoba-based food distributors.
- Continue to provide routine food safety system maintenance and support for several Manitoba food processors and distributors as well as providing general quality assurance advice and assistance.
- I possess a Health Canada cannabis security clearance, have been approved by Health Canada as a cannabis Quality Assurance Person (QAP) and have experience creating cannabis processing GMP/GPP programs. I provide QAP services for a Manitoba cannabis processor.
