# Introduction

## Report Structure

The Annual Report is organized in accordance with the departmental appropriation structure, which reflects the department's authorized vote approved by the Legislative Assembly. The report includes information at the main and sub-appropriation levels, including program descriptions, financial performance and variances, as well as a five-year historical table detailing departmental expenditures.

## Overview

The benefits administration program area of Labour Relations Services, Treasury Board Secretariat, is responsible for providing central administrative services to government-wide employee benefits and insurance programs in accordance with collective agreements, legislation and personnel policies. Negotiated plans include the Ambulance and Hospital Semi-Private (AHSP), Dental, Vision, Prescription Drug and Long Term Disability plans as well as the Health Spending Account. The branch manages the payment and recovery of Workers Compensation from government departments and certain agencies and compiles financial information for statutory benefit and insurance programs including the Civil Service Superannuation Plan, Canada Pension Plan, Group Life Insurance, Employment Insurance and the Levy for Health and Post-Secondary Education.

There are two benefit categories:

- 1) Non-Recoverable, including Superannuation, Workers Compensation (central costs) and other salary related benefits; and
- 2) Recoverable, including Canada Pension Plan, Employment Insurance, Civil Service Group Life Insurance, Workers Compensation (departmental costs), Dental, Long Term Disability, Ambulance and Hospital Semi-Private, Vision Care and Prescription Drug Plans and the Health Spending Account, as well as the Levy for Health and Post-Secondary Education. All costs for recoverable benefits incurred by Employee Pensions and Other Costs are recovered from departments based on either actual salaries paid to employees or on the actual benefit premium paid. Within the recoverable category, benefits can also be divided into two classifications: external, premium-based and self-insured.

**PART I**  
**Employee Pensions and Other Costs**

# Employee Pensions and Other Costs

## A. Non-Recoverable Benefits

### Civil Service Superannuation Plan

The Civil Service Superannuation Plan provides funding for the employer's share of current service contributions and an allocation of interest costs associated with borrowing to partially fund the pension liability.

In addition to this funding, the province has allocated a portion of a legislated provision for debt/pension repayment toward the accumulated pension liability. In 2008/09, \$55 million of the \$110 million deposited to the Debt Retirement Account was allocated for the purpose of reducing the government's pension liability. This additional funding is not included in the Estimates of Expenditure for core government but is recorded as a transfer from the Debt Retirement Account.

Expenditures by Sub-Appropriation	Actual 2008/09 \$(000s)	Estimate 2008/09 \$(000s)	Variance Over/ (Under) \$(000s)	Expl. No.

### Other Salary Related Benefits

This sub-appropriation provides funding for recording of the annual change in the liabilities for severance, vacation and overtime entitlements for employees who have met the service requirements stated in the collective agreement and are still members of the civil service. The liability associated with employees receiving long term disability and workers compensation benefits is also included.

\* The 2008/09 Estimate includes an allocation of \$48 from Appropriation 26-5, Internal Reform, Workforce Adjustment and General Salary Increases, to provide for unbudgeted costs associated with the liabilities.

1. *The increase in Other Salary Related Benefits in 2008/09 mainly reflects an unbudgeted increase in the Workers Compensation Liability as the result of an updated actuarial valuation.*

## Workers Compensation Board

The Workers Compensation Board (WCB) provides funding for the annual payments to government employees injured at work as assessed by the WCB as well as fees paid to WCB for administration of the compensation plan. The annual payments are recovered from other departments in respect of their employees.

The province is self-insured with respect to Workers Compensation payments, although the WCB provides administrative and assessment services.

\* The 2008/09 Estimate includes an allocation of \$48 from Appropriation 26-5, Internal Reform, Workforce Adjustment and General Salary Increases, to provide for unbudgeted costs associated with other salary related benefits.

**Explanations:**

1. The variance for Civil Service Superannuation Plan reflects plan changes to provide for current service contributions and allocation of interest costs associated with borrowing to partially fund the outstanding liability.
2. The increase in Other Salary Related Benefits in 2008/09 mainly reflects an unbudgeted increase in the Workers Compensation Liability as the result of an updated actuarial valuation.

**Employee Pensions and Other Costs  
Expenditures by Sub-Appropriation  
for the fiscal year ended March 31, 2009**

**Explanations: (continued)**

3. The increase in the Canada Pension Plan reflects higher total payroll costs and an increase in the maximum insurable earnings from \$43.7 in 2007 to \$44.9 in 2008.
4. The increase in the Health Spending Account reflects an increase in the maximum claim amounts and claim activity.
5. The increase in Recoverable from Other Appropriations from 2007/08 is primarily the net of higher payroll benefit costs than the prior year.
