Personal Care Services and Charges

Personal care services assist Manitobans who can no longer remain safely at home because of a disability or their health care needs. Personal care services¹ are offered throughout Manitoba. These services include:

- meals (including meals for special diets)
- assistance with daily living activities such as bathing, getting dressed and using the bathroom
- necessary nursing care
- routine medical and surgical supplies
- prescription drugs eligible under Manitoba's Personal Care Home Program
- physiotherapy and occupational therapy, if the facility is approved to provide these services
- routine laundry and linen services

The cost of these services is shared by the provincial government (Manitoba Health) and the client who needs the services. Manitoba Health pays the majority of the cost through the regional health authorities. The personal care service client pays the other portion of the cost. This cost is a daily charge based on income.

¹ Personal Care Services listed are as outlined in the *Personal Care Services Insurance and Administration Regulation*

This booklet provides answers to common questions about personal care services and daily residential charges. Alternatively, clients are encouraged to visit Manitoba Health website @ <https://www.gov.mb.ca/health/pcs/manual.html>. Facility staff members are also available to answer questions relating to your care and your daily charge.

How much will I have to pay?

A daily fee is calculated for each resident. This fee is based on your net income (minus taxes payable) as reported on your 2023 Notice of Assessment from Canada Revenue Agency. Your spouse or partner's income is included in the calculation. A form to calculate your daily charge (see pages 6-7) and a *Table of Residential Charges* (see pages 11-21) are included in this booklet.

Will I have any personal spending money?

Everyone needs spending money (disposable income) for personal expenses. The residential charges rate structure in Manitoba ensures that all clients have a reasonable amount of disposable income for personal needs. After paying your daily residential charge for personal care services, you should still have at least \$4,800 per year.

Example 1

If you are single and have a (2023) income of \$20,568:

- Your daily charge for personal care services is \$43.20.
- After paying your daily charge, you have disposable income of \$400 per month (approximately \$4,800 per year).
- [$\$20,568 - (365 \text{ days} \times \$43.20 \text{ a day}) = \$4,800$ annually; $\$4,800 \div 12 \text{ months} = \400 monthly]

How does this affect my spouse or partner who lives in the community?

If you have a spouse or partner living in the community, then he or she also needs money for living expenses. The calculation for your daily charge takes this into account.

If you pay a daily charge between \$41.80 and \$101.10, the residential charge structure in Manitoba ensures that your spouse or partner should have at least \$43,548 annually for living expenses.

Example 2

If you are married to, or in a common-law relationship with someone living in the community and you have a combined (2023) income of \$64,262:

- You will pay a daily charge of \$43.60.
- You will have disposable income of \$400 per month (approximately \$4,800 per year).
- Your spouse or partner will have an annual allowance of about \$43,548.
- [$\$64,262 - (365 \text{ days} \times \$43.60 \text{ a day}) - \$4,800$ annually disposable income = \$43,548 allowance for a spouse/partner living in the community.]

The spouse or partner of a client who pays the minimum charge of \$41.80 will have an amount up to \$43,548 annually, depending on the couple's combined income.

Example 3

If you are married or in a common-law relationship, and your spouse/partner also resides in a health care facility, and you have a (2023) income of \$20,495 and your spouse has a (2023) income of \$23,707:

- Your combined (2023) income is \$44,202 ($\$20,495 + \$23,707$).
- The (2023) income is \$22,101 ($\$44,202 \div 2$) for both you and your spouse.
- The daily charge is \$47.40 for both you and your spouse.
- After paying your daily charge, both you and your spouse will have disposable income of \$400 per month (approximately \$4,800 per year).
- [$\$44,202 - (365 \text{ days} \times \$47.40 \text{ per day}) - (365 \text{ days} \times \$47.40 \text{ per day}) = \$9,600 \div 2 = \$4,800$ annual disposable income each $\div 12$ months = \$400 monthly].

Do the residential charges change?

Each year, the Manitoba government reviews the residential charges rate structure to adjust for increases in income and the cost of living. As prices go up, so does the cost of caring for clients who receive personal care services. As a result, charges may increase from one year to the next.

Increases usually occur on August 1 (for the 2024/25 rate year, the increase will be effective September 1). Manitoba Health works with facilities to ensure that all clients and their families receive information about the new charges.

For the 2024/25 rate year there are changes to the minimum and maximum rates charged.

What are the 2024 rates?

Effective September 1, 2024:

- The minimum daily charge will increase to \$41.80.
- The maximum daily charge will increase to \$101.10.
- The allowed amount of client disposable income will increase to \$400 per month.
- For clients paying between \$41.80 and \$101.10 per day, the allowance for a spouse or partner living in the community will increase to \$43,548 per year.

How do I calculate my daily residential charge?

1. Complete the form below using information from your 2023 Canada Revenue Agency Notice of Assessment. Use the section that describes your circumstances:
 - Section 1: Use this if you are single, widowed, divorced or separated.
 - Section 2: Use this if you are married and your spouse/partner lives in the community.
 - Section 3: Use this if you are married and your spouse/partner also resides in a health care facility.
2. Refer to the *Table of Residential Charges* that begins on page 11. Be sure to refer to the column in the table that describes your circumstances.

Section 1:

Complete this section if you are **single, widowed, divorced or separated** (Refer to column 1 in the *Table of Residential Charges*)

Amount from line 236 (net income) _____

Subtract the amount
from line 435 (taxes payable) _____

Total
(Your charge is based on this amount) _____

Daily Charge _____

Section 2:

Complete this section if you are **married** and your **spouse/partner lives in the community** (Refer to column 2 in the *Table of Residential Charges*)

	Client	Spouse/ Partner
Amount from line 236 (net income)	_____	_____

Subtract the amount from line 435 (taxes payable)	_____	_____
--	-------	-------

Subtotal	a _____	b _____
-----------------	---------	---------

Total (a + b) = (Your charge is based on this amount)	_____	
---	-------	--

Daily Charge _____

Section 3:

Complete this section if you are **married** and your **spouse/partner also resides in a health care facility**.
(Refer to column 1 in the *Table of Residential Charges*)

	Client	Spouse/ Partner
Amount from line 236 (net income)	_____	_____
Subtract the amount from line 435 (taxes payable)	_____	_____
Subtotal	a _____	b _____
Total (a + b) =		_____
Divide by 2 = (Each charge is based on this amount)		_____
Daily Charge per Person		_____

Reduced Charges

How do I apply for a reduced charge?

The ***initial amount*** assessed for every client is the maximum charge (\$101.10 per day from September 1, 2024 to July 31, 2025). You can apply to request a reduction.

There are two ways to do this:

- Before June 1, 2024, complete a “Tax Information Release Form.” The facility will give you a “Notification of Residential Charge” before new daily charge rates come into effect on September 1, 2024.

OR

- Complete an “Application for Reduced Residential Charge.” Your facility representative will complete Section E of the form and let you know your (assessed) daily charge, based on the information you provide in your form.

The staff at your facility can give you the correct form(s) and help you to submit your request for a reduced charge.

What if I feel I am unable to pay my assessed charge?

If your assessed charge is over the minimum daily amount (\$41.80 per day) and you are unable to pay due to extenuating circumstances, you may ask for a review within 30 days of the effective date. Information about the review process and Manitoba Health policies that may reduce the residential charge are available from staff at your facility. They will help you complete the required forms and will submit them to Manitoba Health on your behalf. Manitoba Health will review your request and notify the facility of its decision.

If you do not agree with this decision, you have the option to appeal through the Manitoba Health Appeal Board. This must occur within 30 days of being notified of the results of a review. The staff at your facility can assist you with this process.

How much do I pay while waiting for a decision on a review or appeal?

While waiting for a decision, you can choose one of the following options:

- Pay the assessed charge.
- Pay the previous year's charge.
- If assessed at the minimum charge in the previous year or admitted as a client after August 31, 2024, you can pay the current minimum charge of \$41.80 per day.

What if my daily charge changes as a result of a review or appeal?

Manitoba Health will inform your facility of the decision about your charge. If there is a difference between this amount and the amount you have been paying, the cost will be adjusted, retroactive to the effective date of charge.

Can I apply to have my charge waived if I have been assessed at the minimum charge?

Under specific circumstances, a full or partial waiver of the minimum charge may be considered within 30 days of the effective date. Ask your facility for information about the waiver process, forms, instructions for completion, and the charge that you will pay while your request is under consideration.

Definitions

Charge - A residential/authorized charge.

Charge or rate year - The period from September 1 of one year to July 31 of the next year.

Client - A resident of a personal care home; a patient in hospital who has been panelled for admission to a personal care home or a patient in hospital panelled for chronic care or a chronic care patient in a long-term health care facility.

Common-law partner - A person with whom a client has lived in a conjugal relationship for at least one year immediately before the client's admission to a health care facility.

Effective date - The day the charge starts, which is either the date admitted, the date panelled or September 1.

Facility - A personal care home, long-term care facility or hospital.

Married - A client who is married or has a common-law partner.

Resident - An individual living in a personal care home on a permanent basis.

Separated - An individual living separate and apart from his/her spouse or common-law partner because of a breakdown in their relationship and not because of medical necessity.

Spouse or partner - A person to whom a client is married. It also includes a person with whom a client has lived in a conjugal relationship for at least one year immediately before the client's admission to a health care facility.
