

***Information for Pharmacists***

**Claims Submission Procedure –  
Advanced Glucose Monitors (AGM)**

***Effective March 14, 2023  
Updated August 27, 2024***

**Please include this Procedure in your Drug Programs Information Network (DPIN) Manual under Section 4: Claims Submission.**

- Effective **March 14, 2023**, coverage for Advanced Glucose Monitors (AGM), which includes Continuous Glucose Monitors (CGM) and Flash Glucose Monitors (FGM), is expanded to all eligible Manitobans with type 1 or type 2 diabetes who meet eligibility criteria.
- The new Part 2 eligibility criteria for AGM is as follows (and can be found in [Bulletin 125](#)):

For patients with type 1 or type 2 diabetes currently on both basal and bolus insulin or using an insulin pump.

Note: According to [Diabetes Canada's Types of Insulin Table](#):

- Intermediate-acting and long-acting insulins are considered basal insulins.
  - Rapid-acting and short-acting insulins are considered bolus insulins.
  - Premixed regular insulin-NPH and premixed insulin analogues are considered to contain both a basal and bolus insulin.
- The pharmacist must verify against the DPIN history that the client meets the above eligibility criteria before submitting a claim to DPIN with an EP exception code.
  - Where a prescription for AGM indicates the client “Meets EDS” the pharmacist should submit the claim to DPIN with an ED exception code.
  - Clients with an existing Exception Drug Status (EDS) approval for AGM supplies who meet the new Part 2 eligibility criteria will no longer require EDS renewal.

**The following AGM products and quantity limits are currently covered:**

<b>PIN</b>	<b>Product</b>	<b>Approved Quantity</b>
00905507	<b>Dexcom G6 Sensor</b>	45 sensors per benefit year
