RESOLUTION:

Mr. EICHLER – Manitoba Drainage Management Program

4. WHEREAS Manitoba agricultural producers and property owners have continually faced hardships created by flooding and high water levels throughout our province. The Provincial Government has a responsibility to properly maintain and enhance Manitoba's drainage infrastructure; and

WHEREAS the Provincial Government has to date failed to develop a long term drainage management plan within the Province; and

WHEREAS shifting drainage management to Conservation Districts offloads provincial responsibility onto municipalities, while providing no additional funding for the tools necessary to put an effective program in place; and

WHEREAS an appropriate drainage management program in Manitoba would prevent additional damage to property; and

WHEREAS it would be a commitment to conserve valuable farmland and prevent further soil erosion; and

WHEREAS a provincial drainage management program would foster the success and growth of agri-business and rural communities; and

WHEREAS the former Minister of Water Stewardship stated in *The Manitoba Water Strategy* that, “The objective of Manitoba’s water drainage policies is to enhance the economic viability of Manitoba’s agricultural community through the provision of comprehensively planned drainage infrastructure.” A provincial drainage management program would help the Provincial Government meet this objective; and

WHEREAS Manitobans deserve a safeguard and a viable plan for the future.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to consider developing a provincial drainage management program; and

BE IT FURTHER RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to consider lobbying the Federal Government to join with them in a cooperative effort to create a sustainable and effective drainage management program in Manitoba.
