RESOLUTION:

Mr. PEDERSEN – Increased Flexibility in Application of Nutrients to Soil

11. WHEREAS the agriculture sector is one of Manitoba's largest and most important sectors; and

WHEREAS nutrient application and usage is a critical part of Manitoba's grain and forage crop sectors; and

WHEREAS the current nutrient application cut-off dates of November 10 and the following April 10 are arbitrary, inflexible and do not take into account weather conditions or the needs of producers; and

WHEREAS there are years in which the weather during fall and early winter is favorable to the application of nutrients to fields; and

WHEREAS producers are among the best stewards of the land with a large portion of their income coming from growing crops in healthy soils.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to permit the application of nutrients based on science and climatic considerations rather than the current practice of using an arbitrary date.
