RESOLUTION:

Mrs. DRIEDGER – Prioritizing the Health and Safety of Manitoba Stroke Victims

15. WHEREAS stroke is the leading cause of adult disability in Manitoba; and

WHEREAS circulatory diseases are the most common cause of death in Manitoba, with stroke being the third leading cause of death in Manitoba; and

WHEREAS at least 1,475 Manitobans had a stroke in 2011/2012, representing a rate of 2.5 strokes for every thousand residents, and in 2013 there were 608 Manitobans who died from a stroke; and

WHEREAS a stroke always constitutes a medical emergency and hospitals in other parts of Canada have dedicated units with specialist staff and services for the treatment and management of stroke patients to improve care and outcomes for people with stroke; and

WHEREAS the Canadian Best Practice Recommendations for Stroke Care recommends stroke patients should be treated on a specialized stroke rehabilitation unit that is geographically defined; and

WHEREAS dedicated stroke unit care reduces the chances of death and disability for all people regardless of the severity of the stroke by up to 30%; and

WHEREAS every other Canadian province has realized the value dedicated stroke units create for patients and have all established these unique medical units, placing Manitobans at a disadvantage for receiving stroke care due to being the only province without a stroke unit; and

WHEREAS despite knowing these facts the Provincial Government last year refused to support a Resolution to establish a dedicated stroke unit in the province, putting the health and safety of thousands of Manitobans who have had a stroke at risk.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to immediately establish a specialized, interdisciplinary dedicated stroke unit within a tertiary care hospital.
