(Hon. Mr. WISHART – 9 mins)

---

## **RESOLUTION:**

### **Mr. ALLUM – Mental Health Promotion Tools and Recovery Oriented Framework for Mental Health**

**17.** WHEREAS mental illness is the single largest category of disease and leading cause of disability in Canada with approximately 25% of Manitobans receiving care for mental illnesses; and

WHEREAS nearly 198 Manitobans are among the 4,000 Canadians who die by suicide each year, an average of almost one suicide every two days; and

WHEREAS the bio-medical system emphasis on pharmacological treatment for mental illnesses has dominated the mental health system as the only widely publicly funded treatment and has created a greater likelihood for people to rely on prescribed drugs to improve their mental health; and

WHEREAS without a balanced approach to mental health treatment, pharmacological treatment alone has concerning physical and mental side effects that can lead people to misuse their medications, develop negative coping mechanisms and trigger addictive behaviors; and

WHEREAS recent literature has emphasized the need for a recovery-based model to address social inequities and evolving systems of mental health services and supports; and

WHEREAS a recovery-based system is built on values of self-determination and self-management for people living with mental illness and is focused on helping persons with mental illness to function as full citizens in society; and

WHEREAS mental health promotion education is seen as one of the most effective recovery oriented methods to improve mental health, prevent suicide and increase the likelihood of Manitobans seeking out the mental health services that are right for them; and

WHEREAS mental health promotion tools provide Manitobans with effective, low cost, everyday strategies, which support capacity building and resilience, and includes targeted prevention activities for at risk groups; and

WHEREAS these tools are especially important as an early intervention method for youth to prevent severe and persistent mental illnesses from occurring later on in life and to prevent a youth from having to rely on prescription drugs for mental health treatment; and

WHEREAS primary care physicians are often the first point of contact with the mental health system, and must be adequately trained to understand and identify both the biomedical and recovery oriented services and tools that are available to their patients, so that they can better find a path to recovery that is right for each patient.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to develop a model to include a recovery oriented framework and mental health promotion tools in mental health care so that mental health literacy can be improved for Manitobans and for the doctors that serve as the first point of contact for Manitobans entering the mental health system.

---

#### **DEBATE ON RESOLUTIONS:**

1. Mr. LINDSEY – Port of Churchill  
(Mr. JOHNSON – 8 mins./126 mins. remaining)
2. Mr. LAGIMODIERE – Reducing the Devastating Effects of Illicit Opioids

(Ms. MARCELINO (Logan) – unlimited)

---

## **DEBATE ON GOVERNMENT RESOLUTION:**

On the Proposed Motion of Hon. Mr. GOERTZEN – Long Term, Sustainable and Flexible Healthcare Funding

WHEREAS health care is the single largest budget item for provinces and territories, each of whom is responsible for the delivery of quality health services for Canadians; and

WHEREAS provinces pay more than 75 per cent of health care costs and the Federal Government continues to reduce growth in health care funding; and

WHEREAS the Federal Government's unilateral approach and refusal to engage in a discussion around the importance of a long term and sustainable partnership on health care funding should be of concern to every Manitoban; and

WHEREAS Manitoba is facing a challenging fiscal situation and the Federal Government's decision to reduce health care funding by more than \$1 billion over the next 10 years is going to put additional strain on the ability to provide services to Manitobans; and

WHEREAS federal funding is essential in order to address the increasing costs associated with the health care needs of the province's growing and aging population.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba be urged to reiterate the position of other governments representing 90 percent of Canada's population, that is, before any further discussion takes place on a renewed Health Accord, the First Ministers request a meeting with the Prime Minister regarding the need for long term, sustainable and flexible funding for the healthcare system and that if this is not accomplished, any proposed reduction in healthcare funding be delayed until 2018/19.

(Mr. MARCELINO (Tyndall Park) – 17 mins)

---

## **NOTICE PAPER**
