MLA LOISELLE –

THAT the following Address be presented to Her Honour the Lieutenant Governor:

We, the Members of the Legislative Assembly of Manitoba, thank your Honour for the gracious speech addressed to us at this First Session of the Forty-Third Legislature of Manitoba.

And the Proposed Motion of Ms. STEFANSON in amendment as follows:

*THAT the motion be amended by adding at the end the following words:*

But this House regrets that the Provincial Government has:

- a) failed to outline how the Provincial Government will make life more affordable in the long term for Manitobans struggling to make ends meet; and
- b) omitted tax relief for small businesses in Manitoba; and
- c) committed to making Manitoba a Maritime province without committing to fighting for the same carbon tax exemptions afforded to such provinces; and
- d) abandoned plans from the previous Provincial Government to build new schools to accommodate a growing student population in the K-12 system; and
- e) abandoned plans to deliver 23,000 childcare spaces to Manitoba's childcare system; and
- f) neglected to detail the specific measures that will be taken to improve retention and recruitment of educators in Manitoba; and
- g) refused to address immigration or Manitoba's population in any substantial manner; and
- h) rejected much-needed upgrades to hospital projects across the province including HSC due to political ideology at the cost of Manitoba patients; and
- i) neglected to detail the specific measures that will be taken to improve retention and recruitment of health care workers in Manitoba; and
- j) disbanded the Diagnostic and Surgical Recovery Task Force, which provided over 85,000 Manitobans with the care they needed, with no plan to help Manitobans waiting in pain; and
- k) failed to mention how the Provincial Government will serve Manitobans waiting for surgical and diagnostic procedures in the short term; and
- l) abandoned six communities that were due to benefit from the construction of new personal care homes; and
- m) failed to address the need for treatment spaces or recovery-oriented care for people struggling with addictions; and
- n) disrespected Manitoba's seniors and those suffering from addictions by disbanding the departments dedicated to seniors, mental health and community wellness; and
- o) failed to mention how the Provincial Government will create new affordable and social housing units that are desperately needed amidst a housing shortage; and

- p) failed to commit to any meaningful action or investments in community art, culture, or non-profit and heritage projects or groups; and
- q) spurned Manitobans who appreciate and enjoy provincial parks and the recreational opportunities and precious ecosystems they hold dear; and
- r) neglected to present a plan to maintain the positive momentum of Manitoba's tourism sector which contributes over \$1 billion to Manitoba's GDP; and
- s) signalled a transition away from a positive plan to develop Manitoba's natural resource economy that was attracting record investment to the province; and
- t) failed to mention the important role that mining and mineral development play in developing Manitoba's provincial economy; and
- u) failed to denounce the previous position taken by NDP Members that policing should be defunded; and
- v) neglected to address the revolving door of catch and release through bail reform; and
- w) disbanded the economic development board and put billions of dollars in investment and thousands of jobs at risk; and
- x) jeopardized financial sustainability of Manitoba Hydro by committing to freeze hydro rates; and
- y) ignored agricultural producers and the agriculture industry which represents nearly 10% of Manitoba's GDP; and
- z) failed to commit to continuing the five-year, \$500 million annual infrastructure budget.

As a consequence of these and many other failings, the Provincial Government has thereby lost the trust and confidence of the people of Manitoba and this House.

(Hon. Min. MARCELINO – 8 minutes)
