INTRODUCTION

The Hansard Index is designed to provide easy access to topics discussed in the Legislative Assembly. For this reason it corresponds strictly to the text of the Manitoba Hansard.

FORMAT

Volumes were not numbered at the time of printing in 1958. For indexing purposes the current practice of numbering volumes was followed. When two sittings occur in one day, the early sitting is "a", the later sitting is "b". The format for the page reference is as follows: 5b:2 (5b is the volume number, 2 is the page reference). The online *Debates and Proceedings Calendar* corresponds with the numbering system.

Member/Subject Index: Main entry in this section is a subject heading which may be subdivided. Following the main entry are secondary headings, "see" and "see also" references, and a listing of individuals who spoke on that subject.

FILING ARRANGEMENT

The basic filing principle is alphabetical, letter by letter.

The sequence is as follows:

- a) numbers are filed at the beginning of the alphabet, if they are the first character in the filing element
- b) initials separated by punctuation are filed at the beginning of their alphabetic group
