

LICENCE

Licence No. / Licence n° 2876

Issue Date / Date de délivrance April 6, 2009

In accordance with The Environment Act (C.C.S.M. c. E125) /
Conformément à la Loi sur l'environnement (C.P.L.M. c. E125)

Pursuant to Section 11(1) / Conformément au Paragraphe

THIS LICENCE IS ISSUED TO : / CETTE LICENCE EST DONNÉE À :

THE RURAL MUNICIPALITY OF EAST ST. PAUL; "the Licencee"

for the operation of the Development being a groundwater supply system for municipal purposes for the Rural Municipality of East St. Paul, with the following components:

- (a) four existing wells near Oasis Road in an overburden sand and gravel deposit (PW1, PW 4, PW5 and PW6);
- (b) two existing wells in the Carbonate Aquifer (PW7 near Wenzel Road and PW8 near Oasis Road);
- (c) a water treatment plant and reservoir near Wenzel Road; and
- (d) a raw water pipeline connecting the Oasis Road wells and the Wenzel Street facilities

in accordance with the Environment Act Proposal dated September 22, 2008, and subject to the following specifications, limits, terms and conditions:

DEFINITIONS

In this Licence,

"as constructed drawings" means engineering drawings complete with all dimensions which indicate all features of the Development as it has actually been built.

GENERAL TERMS AND CONDITIONS

This Section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. The Licencee shall, in addition to any of the following specifications, limits, terms and conditions specified in this Licence, upon the request of the Director:
 - (a) sample, monitor, analyse or investigate specific areas of concern regarding any segment, component or aspect of pollutant storage, containment, treatment, handling, disposal or emission systems, for such duration and at such frequencies as may be specified;
 - (b) determine the environmental impact associated with the release of any pollutants from the Development;
 - (c) conduct specific investigations in response to the data gathered during environmental monitoring programs; or
 - (d) provide the Director, within such time as may be specified, with such reports, drawings, specifications, analytical data, flow rate measurements and such other information as may from time to time be requested.
2. The Licencee shall operate the water supply system in accordance with Manitoba Regulations under the Public Health Act, the Drinking Water Safety Act, and all operating requirements as recommended by Manitoba Conservation and Manitoba Water Stewardship.
3. The Licencee shall collect and dispose of all used oil products and other regulated hazardous wastes generated by the machinery used in the operation of the Development in accordance with applicable Manitoba Conservation and legislation requirements.
4. The Licencee shall maintain the water supply wells associated with the Development to prevent the contamination of groundwater by surface water:
 - (a) entering the well casings through the top of the casings;
 - (b) entering the well casings through the sides of the casings; and
5. The Licencee shall:
 - (a) prepare as constructed drawings for the Development and shall label the drawings "As Constructed"; and
 - (b) provide to the Director, within three months of the date of this Licence, two sets of as constructed drawings. As constructed drawings of portions of the Development to be prepared by the Manitoba Floodway Authority shall be provided when available.

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

Respecting Operation:

6. The Licencee shall properly train or qualify individuals to carry out the operation of the Development pursuant to the requirements of *Manitoba Regulation 77/2003* respecting *Water and Wastewater Facility Operators*, or any future amendment thereof.
7. The Licencee shall not release chlorinated water from pipeline testing and startup activities associated with the Development to a surface water body until chlorine level concentrations are equal to or less than 0.1 milligrams per litre. Releases of chlorinated water at higher concentrations may be made to vegetated land or dry waterways, provided that chlorine level concentrations have decayed to 0.1 milligrams per litre or less before the released water reaches any body of surface water.

8. The Licencee shall not permit the interconnection of a private water supply system with the Development.
9. The Licencee shall operate the Development with respect to the volume and rate of water diverted in accordance with a Water Rights Licence issued pursuant to the Water Rights Act.
10. The Licencee shall decommission private wells made redundant by the Development in accordance with Manitoba water well industry standards.
11. The Licencee shall actively participate in any watershed and/or aquifer based management study being undertaken by Manitoba Water Stewardship or any watershed planning authority.

REVIEW AND REVOCATION

- A. Environment Act Licence No. 2035 is hereby rescinded.
- B. If, in the opinion of the Director, the Licencee has exceeded or is exceeding or has or is failing to meet the specifications, limits, terms, or conditions set out in this Licence, the Director may, temporarily or permanently, revoke this Licence.
- C. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms or conditions of this Licence, the Director may require the filing of a new proposal pursuant to Section 11 of The Environment Act.
