ORDINARY LICENCE - MANITOBA DEPARTMENT OF TOURISM & RECREATION,  
SW 1/4-58-24W, Clearwater Provincial Park

This licence is issued pursuant to The Clean Environment Act permitting Manitoba Department of Tourism & Recreation to discharge contaminants or wastes arising from the operation of a sewage lagoon located on the SW 1/4-58-24W in Clearwater Provincial Park onto the soil, subject to the following conditions:

- (1) The licensee shall ensure that the said sewage lagoon is constructed in such a manner as to prevent contamination of groundwater.
- (2) The licensee shall ensure that the contaminants or wastes collected and retained in the said sewage lagoon are so treated that the level of the biochemical oxygen demand of the effluent does not exceed 30 milligrams per litre at the time of discharge to the soil.
- (3) The licensee shall ensure that before the release of effluent takes place to the soil the contaminants or wastes collected and retained in the said sewage lagoon are chlorinated to a standard acceptable to the Clean Environment Commission.
- (4) The licensee shall ensure that no discharge of effluent takes place between the first of November in any one year and the fifteenth of May the following year without the express permission of the Commission.
- (5) The licensee shall ensure that no discharge of effluent takes place between the fifteenth day of June and the fifteenth day of September in any one year without the express permission of the Commission.
- (6) The licensee shall ensure that the said sewage lagoon is operated in such a manner as to minimize the release of offensive odours.
