

Environment Act Licence

Manitoba
Environment

Licence No. 1544

Issue Date APRIL 21, 1992

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

THE PROVINCE OF MANITOBA REPRESENTED BY THE MINISTER OF HIGHWAYS AND TRANSPORTATION: LICENCEE

The Licencee shall comply with the following terms and conditions for the construction of the realignment of Provincial Road #260 with Provincial Road #265 ("the realigned roadway"), located near the Village of Plumas, in the Rural Municipality of Westbourne. The construction of the road shall be in accordance with the Key Plan prepared by the Department of Highways titled "Proposed Key Plan of P.R. #260" filed as additional information on January 28, 1992, and the Environment Act Proposal, dated July 9, 1990.

- 1) The Licencee shall haul all garbage material from the abandoned waste disposal ground exhumed during construction of the realigned right-of-way to a registered Municipal waste disposal ground.
- 2) The Licencee shall provide the Director with advance notice at least one week prior to backfilling the exposed cut of the realigned right-of-way. The Licencee shall not backfill the exposed cut until an Environment Officer has completed a site investigation to ensure that all garbage has been removed from the abandoned landfill area within the realigned right-of-way.
- 3) The Licencee shall backfill the face and bottom of the exposed cut through the abandoned landfill area of the realigned right-of-way with compacted clay fill to a depth of 2 feet.
- 4) The Licencee shall, following completion of the realigned roadway, backfill all areas of the abandoned waste disposal ground exposed during construction with compacted clay fill.

The Province of Manitoba Represented by the
Minister of Highways and Transportation

- 2 -

- 5) The Licencee shall construct the Jordan Drain crossing in accordance with the " Recommended Fish Protection Procedures for Stream Crossings in Manitoba. "
- 6) The Licencee shall, following completion of the crossing structure, re-establish the profile of the Jordan Drain at that location.
- 7) The Licencee shall seed areas that previously supported native vegetation with a mixture of native or introduced grasses.
