

SUMMARY OF COMMENTS/RECOMMENDATIONS

PROPONENT: Boeing Canada Operations Ltd.
PROPOSAL NAME: Boeing Canada – 99 Murray Park Plant
CLASS OF DEVELOPMENT: 2
TYPE OF DEVELOPMENT: Manufacturing -
CLIENT FILE NO.: 3009.10

OVERVIEW:

Manitoba Sustainable Development received a Proposal on May 13, 2016 for the expansion and continued operation of the Development being a fibre composite aircraft parts manufacturing facility located at 99 Murray Park Road in Winnipeg, Manitoba. The facility manufactures products such as wing to body fairings, engine strut forward fairings, engine strut aft fairings, landing gear doors and acoustic inner barrel (AIB) for Boeing Commercial Airplanes.

The Department, on June 4, 2016 placed copies of the Proposal in the Public Registries located at Legislative Library (200 Vaughan Street), the Winnipeg Millennium Public Library and online at <http://www.gov.mb.ca/conservation/eal/registries/5346.1boeing/index.html>. Copies of the Proposal were also provided to the Technical Advisory Committee (TAC) members. A notice of the Environment Act proposal was also placed in Winnipeg Free Press on June 4, 2016. The newspaper and TAC notifications invited responses until July 4, 2016.

COMMENTS FROM THE TECHNICAL ADVISORY COMMITTEE:

Manitoba Sustainable Development –Historic Resources Branch

The branch requested the proponent to provide prior notification of any future construction works that will involve excavation or landscaping so that potential impacts to heritage resources can be determined.

Disposition

The information is forwarded to the proponent and the proponent is advised to consult the Heritage Recourses Branch in the future prior to starting a construction involving earthwork.

Manitoba Sustainable Development – Climate Change and Air Quality Branch

The branch commented that there will be no significant impact on air quality as per the submitted proposal; however, clauses regarding noise and odour nuisance are recommended.

Disposition

Clauses 8 and 9 of the draft Environment Act Licence address odour and noise nuisance, respectively.

PUBLIC HEARING:

A public hearing was not requested and is not recommended.

CROWN-INDIGENOUS CONSULTATION:

The Government of Manitoba recognizes that it has a duty to consult in a meaningful way with Indigenous communities when any proposed provincial law, regulation, decision or action may infringe upon or adversely affect the exercise of the Indigenous rights of that community.

The proposed relocation will be to an existing facility located in an industrial district within the City of Winnipeg. There would be no infringement of Indigenous rights under Section 35 of the Constitution Act, 1982 at this time. Therefore, it is concluded that Crown-Indigenous consultation is not required for the project.

RECOMMENDATION:

The Proponent should be issued a Licence for the expansion and continued operation of a fibre composite aircraft parts manufacturing facility in accordance with the specifications, terms and

conditions of the attached draft Licence. Enforcement of the Licence should be assigned to the Environmental Compliance and Enforcement Branch of Manitoba Sustainable Development.
