

Master Aspect List

Category	ID	Aspect
	73	Failure to Report
Air	15	Noise
	14	Emissions
	13	Dust
	16	Use of hydrocarbon based products
Chemical	63	Dangerous goods management (chemical - herbicide)
	58	Chemical leaks (hydrocarbons)
	59	Chemical leaks (herbicide)
	60	Chemical spills (hydrocarbons)
	62	Dangerous goods management (chemical - explosives)
	64	Dangerous goods management (chemical - hydrocarbons)
	66	Mis-application of chemicals
	67	Improper storage
	61	Chemical spills (herbicide)
	65	Failure to inspect
Land	27	Extraction and placement of soil / sand / gravel

Table 12.1

Category	ID	Aspect
Land	31	Stabilize slopes
	23	Alter natural topography
	24	Disturbance to roadbed
	26	Disturbance to surface organic layer
	30	Site disturbance
	29	Placement of sawdust and/or straw on site
	28	Extraction of aggregate
	25	Disturbance to soil
Operations	75	Operation of equipment
Planning	9	Failure to incorporate non-timber environmental values
	1	Failure to collect and utilize appropriate inventory information
	12	Mapping / data entry error
	10	Failure to incorporate traditional ecological knowledge (TEK)
	8	Failure to incorporate non-timber economic values
	7	Failure to incorporate non-timber social values
	6	Failure to schedule operation for appropriate season
	5	Failure to include sufficient contingency areas
	4	Failure to examine alternative routes

Table 12.1

Category	ID	Aspect
Planning	3	Failure to examine alternative operating blocks and cutblocks
	2	Failure to communicate with First Nations, local communities and other resource users
	11	Improper design
Resource	34	Containing fire spread
	39	Failure to clean debris build-up from machine
	32	Accumulation of biomass
	33	Alter stand dynamics
	47	Spark ignition
	52	Limitation of public access
	51	Increased public access to natural resources
	50	Increase in traffic
	37	Establishment of new forest trees
	54	Removal of infrastructure
	35	Disturbance to advanced growth
	55	Removal of understory vegetation
56	Removal of canopy	
49	Failure to incorporate non-timber values	

Table 12.1

Category	ID	Aspect
Resource	53	Removal of biomass
	48	Suppress fire starts
	72	Establishment of understory vegetation
	46	Slash re-distribution
	45	Removal of target trees and shrubs
	44	Removal and placement of timber
	43	Improper stock selection
	42	Failure to model correctly
	41	Failure to maintain seed source
	40	Failure to implement temporary watercourse crossing
	38	Extraction of the timber resource
	36	Disturbance to crop trees
	57	Partial removal of canopy
	Waste	69
68		Liquid hazardous waste generation and disposal
71		Use of paper
70		Sanitary sewage generation and disposal
Water	74	Leaching (Fertilizer)

Table 12.1

Category	ID	Aspect
Water	18	Constriction of channel
	19	Generation of equipment wash rinse water
	20	Generation of melt-water run-off
	21	Leaching (resins)
	22	Leaching (preservatives)
	17	Alteration of hydrology and natural watercourses
