Winkler, MB R6W 4B2

Dear Ms. Abrams:

Re: Notice of Alteration – Environment Act Licence 2990 RR – Additional feedstock for Composting Process

Thank you for your October 16, 2019 Notice of Alteration submission to Environment Act Licence 2990 RR. The alteration request consists of expanding the types of feedstock for the commercial composting process.

Upon review of your alteration request, I have concluded that the environmental effects of the proposed alteration will be insignificant, and, therefore, you are hereby authorized to accept ICI organic wastes; subject to the following terms and conditions:

1. The following definition is added to Licence 2990 RR:
“ICI organic wastes” means pre or post consumer organic wastes from Industrial, Commercial or Institutional sources, free from contaminants that would affect or degrade the commercial composting process or compost; and
2. Licence 2990 RR Clause 25 is revised to read:
 25. a) The Licencee shall only accept and use green waste, household organic waste, ICI agricultural by-products, straw, livestock manure, livestock or wildlife mortalities, wood waste, drywall cutoffs or ICI organic wastes as feedstock at the Development.
 25. b) As of November 13, 2019, any new feedstock proposed to be received for use in the composting process must be approved by an Environment Officer or Director prior to acceptance.
 25. c) The Director may revise or rescind the approval of any type of feedstock issued under 25. b); may restrict the volume of any type of feedstock approved and may implement lower limit thresholds for the submission of requests under 25 b).

Please be advised that this approval is contingent on the acceptance of a revised Environment Act Licence that will be issued in the near future. If you have any questions regarding this matter, please contact Cory Graham at 204-250-7645 or cory.graham@gov.mb.ca.

Yours sincerely,

Siobhan Burland Ross, M.Eng., P. Eng.
Director
The Environment Act
