3. install monitoring wells MW-1 and MW-2 per the proposal dated November 8, 2023;
4. submit record drawings following clause 139 of the licence; and
5. notify the designated Environment Officer at least five days and not more than ten days before construction begins on a new cell. The notification must include the intended start date of the construction and the name of the contractor performing the work.

All other clauses of Environment Act Licence No. 3081 R remain in effect. This approval is available on the public registry at <https://www.gov.mb.ca/sd/eal/registries/index.html>.
